

Publikationsliste

Peer-review Artikel

- Wang, Y., Paul, S. Jocher, M. Espric, C., Alewell, C, Szidat, S., Leifeld, J. 2021. Soil carbon loss from drained agricultural peatland after coverage with mineral soil. *Science of the Total Environment*. 149498.
- Leifeld, J. Alewell, C., Paul, S. 2021. Accumulation of C₄-carbon from *Miscanthus* in organic-matter-rich soils. *Global Change Biology Bioenergy*, 13. 1319-1328.
- Paul, S., Ammann, C., Alewel, C., Leifeld, J. 2021. Carbon budget response of an agriculturally used fen to different soil moisture conditions. *Agricultural and Forest Meteorology* 300, 108319.
- Huang, J.-H., Paul, S., Mayer, S., Moradpour, E., Hasselbach, R., Gieré, R., Alewell, C. 2017. Metal biogeochemistry in constructed wetlands based on fluviatile sand and zeolite- and clinopyroxene-dominated lava sand. *Scientific Reports*, 7.1, 2981.
- Paul, S., Martinson, G.O., Veldkamp, E., Flessa, H. 2008. Sample pretreatment affects the distribution of organic carbon in aggregate fractions of tropical grassland soils. *Soil Science Society of America Journal*, 72, 500-506.
- Paul, S., Veldkamp, E. Flessa, H. 2008. Soil organic carbon in density fractions of two tropical soil types under forest – pasture – secondary forest land use changes. *European Journal of Soil Science*, 59, 359-371.
- Alewell, C., Paul, S., Storck, F., Lischeid, G. 2008. Co-Regulation of redox processes in freshwater wetlands as a function of organic matter availability? *Science of the Total Environment*, 404, 2-3, 115-122.
- Paul, S., Flessa, H., Veldkamp, E., Lopez-Ulloa, M. 2008. Stabilization of recent soil carbon in the humid tropics depends on soil type. *Biogeochemistry*, 87, 247-263.
- Paul, S., Veldkamp, E., Flessa, H. 2008. Differential response of mineral-associated organic matter in tropical soils formed in volcanic ashes and marine Tertiary sediment to treatment with HCl, NaOCl, and Na₄P₂O₇. *Soil Biology and Biochemistry*, 40, 1846-1855.
- Lischeid, G., Kolb, A., Alewell, C., Paul, S. 2007. Impact of redox and transport processes in a riparian wetland on stream water quality in the Fichtelgebirge region, southern Germany, *Hydrological processes*, 21.1, 123-132.
- Alewell, C., Paul, S., Lischeid, G., Küsel, K., Gehre, M. 2006. Characterizing the redox status in three different forested wetlands with geochemical data. *Environmental Science & Technology*, 40, 7609-7615.
- Paul, S., Küsel, K., Alewell, C. 2006. Reduction processes in temperate forests: tracking down heterogeneity with a combination of methods. *Soil Biology and Biochemistry*, 38, 1028-1039.
