

Project no. 227161

## BIOBIO

*Indicators for biodiversity in organic and low-input farming systems*

Thematic Priority: Food, Agriculture and Fisheries and Biotechnology  
Funding scheme: KBBE-2008-1-2-01

### Deliverable D5.2

## Conference session on biodiversity monitoring in organic/low-input farming systems in developing countries

Due date of deliverable: Month 42  
Actual submission date: 31.08.2012

Start date of project: 01.03.09  
Duration: 3 1/2 years (42 months)  
Organisation name of lead contractor for this deliverable: TUM

### Final Version

Project co-funded by the European Commission within the Seventh Framework Programme (2009-2012)		
Dissemination Level		
<b>PU</b>	Public	X
<b>PP</b>	Restricted to other programme participants (Including the Commission Services)	
<b>RE</b>	Restricted to a group specified by the consortium (Including the Commission Services)	
<b>CO</b>	Confidential, only for members of the consortium (Including the Commission Services)	

**Conference session on biodiversity monitoring in organic/low-input farming systems in developing countries**

31.08.2012

The conference session on biodiversity monitoring in organic/low-input farming systems in developing countries took place during the Final Conference of the project, 21./22.06.2012 in Engelberg, Switzerland.

After a short introduction by Max Kainz, one representative of each ICPC case study held a presentation on the work performed within BioBio in their country and some results presented.

The four presentations are attached below.

For further information on the results from the ICPC case studies read Deliverable 5.1.

Introduction from Max Kainz

Tetyana Dyman presenting the Ukrainian case study

Gerardo Moreno acting for the Tunisian case study

Norman Kwiriza representing the Ugandan case study
