### Strategic Research Divisions

- **Animals and Products of Animal Origin**
  - Feed Control
    - Thomas Hinterberger
  - Horse Breeding and Proper Housing
    - Rudolf von Niederhäusern
  - Research Contracts
    - Animals
      - Yvo Asby
      - Posieux Experimental Farm
      - Yvo Asby
    - Horses Avanches
      - Philippe Barthier

- **Animals Avances Philippe Barthier**
  - Animal Biology
    - Paola Stacci
  - Feed Biology
    - Nicolas Pridenavand
  - Feed Chemistry
    - Sébastien Dubois
  - Wine Quality
    - Fabrice Lorin
  - Biochemistry of Milk and Microorganisms
    - Stefan Amrnat
  - Fermentation Organisms
    - Hélène Berthoud
  - Ingredients
    - René Badtlercher
  - Environmental Analytics
    - Thomas Buchal
  - Molecular Ecology
    - Franco Widmer
  - Molecular Diagnostics
    - Genomics and Bioinformatics
    - Jörg Ernst Frey

- **Plant Breeding**
  - Field-Crop Breeding and Genetic Resources
    - Etienne Bucher
  - Feed Breeding and Genetic Resources
    - Markus Kellerhar
  - Forage-Plant Breeding
    - Franz Schubiger
  - Breeding Research
    - Andrea Patocchi

- **Plant Production Systems**
  - Field-Crop Systems and Plant Nutrition
    - Luca Braga
  - Greenhouse Crops NN
  - Barley and Medicinal Plants
    - Bastian Christ
  - Fruit Crops
    - Thomas Stenger
  - Herbs in Field Crops and Viticulture
    - Judith Wirth
  - Viticulture
    - Jean-Laurent Spring
  - Vitology
    - Gilles Boudin

- **Plant Protection**
  - Phytopathology and Zoology in Fruit and Vegetable Production
    - Eduard Holliger
  - Plant Protection South of the Alps
    - Maurer Jerm
  - Mycology and Biotechnology
    - Katia Gindro
  - Entomology in Field Crops and Viticulture
    - Thomas Stenger
  - Virology, Bacteriology and Phytoplasmology
    - Olivier Schumpp
  - Ecological Plant Protection in Field Crops
    - Susanne Vogelsang

- **Animal Production Systems and Animal Health**
  - Rumination
    - Frigga Dohme-Meier
  - Pig
    - Giuseppe Bee
  - Grazing Systems
    - Massimiliano Probo
  - Farm-Animal Welfare
    - Beat Wochler
  - Bees
    - Jean Daniel Charrière
  - Forage Production and Grassland Systems
    - Andreas Lüscher
  - Swiss Institute of Equine Medicine (IIME)
    - Dominik Burger

- **Food Microbial Systems**
  - Cheese Quality and Authenticity
    - Daniel Weichler
  - Cultures, Biodiversity and Terroir
    - Ramon Schmid
  - Risk Evaluation and Risk Mitigation
    - Thomas Berger
  - Functional Nutritional Biology
    - Guy Vergès
  - Human Nutrition, Sensory Analysis and Flavour
    - Barbara Waether
  - Microbiological Food Safety
    - Jörg Rummeltvan
  - Production of Cultures
    - Christoph Kuhn
  - Processing Technology
    - Helena Stoffers
  - Biotechnology
    - Ueli von Ah

- **Agroecology and Environment**
  - Climate and Agriculture
    - Jens Leifeld
  - Water Protection and Substances Flows
    - Frank Lischky
  - Soil Fertility and Soil Protection
    - Peter Wänzlaphof
  - Swiss Soil Monitoring Network
    - Rolo Giulio Maul
  - Plant-Soil Interactions
    - Marcel v. der Heijden
  - Agricultural Landscape
    - Jörg Romeis

- **Competitiveness and System Evaluation**
  - Business Analysis
    - Daniel Weichler
  - Information Technology
    - Jean-Luc Vionnet
  - Business Analytics
    - Projects and Development
  - Operations, Support and Integration
  - Infrastructure and Safety
    - Nédal Pflimlin
    - Support and Infrastructure West

- **Resources Unit**
  - Human Resources
    - Yvonne Schaller
  - Farm Management
    - Christian Müller
  - Automation and Labour Organisation
    - Christina Umsditter
  - Digital Production
    - Thomas Anken

## Status: October 1st 2019
